MIKE & TRISH VALLER
(406) 755-2735

Greetings from Montana!

We were not able to get the gardens planted until late June, and then the weeds grew and grew! We have had a series of wet springs in recent years that delayed our planting, but I think the dahlias know we try, so they grow faster and before long catch up and I find myself disbudding. It just doesn't pay to worry!

Thank you to our many loyal customers and welcome to our new ones. Our gardens have old and newer varieties, however we stress reliability. A variety must have a strong plant, grow well, produce tubers that store well, and have blooms that show and sell well to remain in our gardens very long.

We guarantee our tubers to have a viable eye and be true to variety, **but we cannot guarantee a tuber will grow in unfavorable weather, insect, or soil conditions.** If you have any problems with your order, let us know as soon as possible and **before planting.** We will gladly replace tubers, if possible, or refund your money.

Cultivars are listed with a combination of classification number followed by position number in group, name, size, form, color, plant height, year of introduction, cut flowers we especially like, and other info. You will find most of the "FABULOUS FIFTY" and "CREAM of the CROP" and good old reliables.

Bonus tubers: one for each \$30.00 of tubers purchased; **our choice and dependent upon supply.**

A note to our foreign customers: we will be shipping Air Mail at a cost of \$12.00 plus \$23.00 inspection certificate for a total of \$35.00 plus price of tubers. Send payment in U.S. dollars with order.

Confirmation will be sent as soon as possible. We ship Priority Mail within the U.S. on Mondays and Tuesdays starting April 1 unless otherwise requested. Rates are at bottom of order form. Make payment by check or Money Order – **NO Credit Cards.**

We use the following abbreviations: *=Fabulous Fifty +=Cream of the crop
